PROFESSIONAL SUMMARY

MCA student and Full Stack Developer with hands-on experience building responsive, database-driven web applications using React.js, Node.js, Flask, and Python. Skilled in RESTful APIs, authentication, role-based systems, MongoDB, MySQL, and Power BI, with a strong focus on clean architecture, scalability, and practical problem-solving.

EDUCATION

Master of Computer Applications (MCA) Dr. G.R. Damodaran College of Science, Coimbatore	2024 – 2026 CGPA: 9.21
PG Diploma – Robotics Dr. G.R. Damodaran College of Science, Coimbatore	2024 – 2026 CGPA: 9.42
B.Sc. Mathematics Dr. N.G.P. Arts and Science College, Coimbatore	2021 – 2024 CGPA: 8.00

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML5, CSS3
Frontend	React.js, Responsive Web Design
Backend	Node.js, Express.js, Flask
Databases	MongoDB, MySQL
APIs & Data	RESTful APIs, JWT, Power BI, Data Analysis, Random Forest
Tools	Git, GitHub, VS Code
Computer Vision	OpenCV, LBPH

PROJECTS

FOODGO – SMART DELIVERY PLATFORM <i>React.js / Node.js / MongoDB</i>	—	2026
- Developed a full-stack food delivery platform using React.js, Node.js, Express.js, and MongoDB. - Implemented JWT authentication, restaurant and menu management, cart, orders, favourites, and role-based dashboards. - Integrated RESTful APIs and MongoDB workflows to support secure and scalable food ordering operations.		
RAPID RELIEF BLOOD PLATFORM <i>React.js / Flask / MongoDB</i>	—	2026
- Developed a healthcare coordination platform connecting donors, receivers, hospitals, and administrators through role-based workflows. - Implemented JWT authentication, blood requests, donor matching, emergency coordination, and secure user management. - Integrated React.js, Flask REST APIs, and MongoDB for centralized blood request and coordination workflows.		
VINAYAGA MART – GROCERY E-COMMERCE <i>React.js / Flask / MongoDB</i>	—	2026
- Developed a full-stack grocery e-commerce platform with authentication, product browsing, cart, and order management. - Implemented inventory management and administrative controls for products and orders. - Integrated React.js, Flask REST APIs, and MongoDB for complete application workflows.		

CUSTOMER CHURN ANALYTICS *Python / Random Forest / Power BI* — 2025

- Developed a Random Forest churn prediction model using the IBM Telco Customer Churn dataset, achieving **79.6% accuracy**.
- Performed data preprocessing and exploratory analysis using Python to identify key customer churn patterns.
- Built an interactive Power BI dashboard with KPIs, customer segmentation, and analytical insights.

FACE RECOGNITION SYSTEM *Python / OpenCV / LBPH* — 2024

- Developed a real-time face recognition system using Python and OpenCV for automated detection and identification.
- Implemented Haar Cascade for face detection and LBPH for training and recognition.
- Designed an end-to-end workflow for face capture, model training, and real-time recognition.

INTERNSHIPS

MERN Stack Developer Intern *VINSUP Academy* — 3 Months

- Developed full-stack applications using MongoDB, Express.js, React.js, and Node.js with RESTful APIs and CRUD operations.

Cyber Security Intern *Verzeo* — 2 Months

- Gained practical exposure to network security, ethical hacking, cyber threats, and data protection.

Data Analytics Intern *OneData Software Solutions* — 6 Days

- Built Power BI dashboards and analytical reports using data visualization, transformation, and business-focused insights.

CERTIFICATIONS

• MERN Stack Development	VINSUP Skill Academy	2026
• MERN Stack Development Internship	VINSUP Skill Academy	2026
